Regarding: Call for solidarity with the workers at Bosal Group, Turkey

Dear Colleagues,

The EMF expresses its resentment with the role of local management of Bosal Group in Turkey, which is interfering with trade union organising at the plant. It becomes now clearer and clearer that local management is supporting Turk Metal in their efforts to get the majority of workers as member. It is unacceptable that a management is choosing their trade union.

The EMF asks management to stop this involvement immediately and asks its affiliates to support the workers at Bosal.

Send letters of solidarity to:

BOSAL group
